URGENT PETITION

Petitions need to be received by: April 30, 2009

Please mail to:
GOC-POMC *(Greater Orange County Chapter of Parents Of Murdered Children)*
P.O. Box 15343
Anaheim, CA 92803

On March 29, 1991, David Glen Foster was shot and killed. The homicide detectives declared his death as "spontaneous suicide" prior to an autopsy being done. Additionally the coroner's office declared this a suicide. Only fourteen (14) man-hours were used to investigate the cause of death.

Of great concern is the fact that David's parents were never officially notified nor were there any interviews of David's family, friends or co-workers. Furthermore, David was left-handed, but he was shot in the right side of his head. Additionally, according to a sworn statement by the employee of the place of business where David's death occurred, the employee moved the weapon prior to the arrival of law enforcement officers.

We are petitioning Sheriff Lee Baca to open the cause of death on David Glen Foster to be able to substantiate the real cause of death.

The signatures provided below show support for the petition for an immediate opening of this case.
